Introduction

What is the purpose of this book? The purpose of this book is to provide a comprehensive introduction to the field of artificial intelligence (AI) and its applications. The book is designed for students and researchers who are new to the field and want to learn the basics of AI and its various subfields.

The book is organized into several chapters, each covering a different aspect of AI. The chapters are:

1. Introduction to AI (relevance) of AI in the world, the history of AI, the current state of AI, and the future of AI.

2. The foundations of AI.

3. The foundations of AI.

4. The foundations of AI.

5. The foundations of AI.

6. The foundations of AI.

7. The foundations of AI.

8. The foundations of AI.

9. The foundations of AI.

10. The foundations of AI.

11. The foundations of AI.

12. The foundations of AI.

13. The foundations of AI.
